Dear Dr. Lederberg

I have been contemplating doing some work with mutations in bacteria. While reading on the subject, I come across a paper you wrote which could benefit a novice like myself. I hope you still have reprints of it that you can spare. The paper appeared in, "Methods in Medical Research" 3 1950. I would appreciate it very much if you could mail me a reprint of that article, assuming your stocks are not depleted.

Respectfully yours,
Arthur Brown
